VEH: Human vs Chimp − GO:BP
aerobic respiration
cellular respiration
oxidative phosphorylation
respiratory electron transport chain
mitochondrial ATP synthesis coupled electron transport
ATP synthesis coupled electron transport
electron transport chain
aerobic electron transport chain
energy derivation by oxidation of organic compounds
proton motive force−driven ATP synthesis
proton motive force−driven mitochondrial ATP synthesis
generation of precursor metabolites and energy
small molecule metabolic process
mitochondrial electron transport, NADH to ubiquinone
ATP biosynthetic process
purine ribonucleoside triphosphate metabolic process
ATP metabolic process
nucleoside triphosphate metabolic process
purine nucleoside triphosphate metabolic process
actin filament−based process
