Human: IFNy vs VEH − KEGG
Herpes simplex virus 1 infection
Influenza A
Hepatitis C
NOD−like receptor signaling pathway
Epstein−Barr virus infection
Antigen processing and presentation
Human immunodeficiency virus 1 infection
RIG−I−like receptor signaling pathway
Measles
Cytosolic DNA−sensing pathway
Kaposi sarcoma−associated herpesvirus infection
Autoimmune thyroid disease
Allograft rejection
TNF signaling pathway
Toll−like receptor signaling pathway
Graft−versus−host disease
KEGG root term
Pertussis
Apoptosis
Primary bile acid biosynthesis
