Interaction − GO:BP
response to other organism
response to external biotic stimulus
response to biotic stimulus
response to external stimulus
biological process involved in interspecies interaction between organisms
defense response to other organism
defense response
defense response to symbiont
innate immune response
immune system process
immune response
regulation of response to external stimulus
response to bacterium
regulation of defense response
negative regulation of receptor signaling pathway via JAK−STAT
negative regulation of receptor signaling pathway via STAT
positive regulation of immune system process
response to stress
regulation of response to stress
inflammatory response
