IFNy: Human vs Chimp − GO:BP
oxidative phosphorylation
aerobic respiration
mitochondrial ATP synthesis coupled electron transport
cellular respiration
ATP synthesis coupled electron transport
respiratory electron transport chain
aerobic electron transport chain
proton motive force−driven ATP synthesis
electron transport chain
energy derivation by oxidation of organic compounds
proton motive force−driven mitochondrial ATP synthesis
generation of precursor metabolites and energy
nucleoside triphosphate biosynthetic process
small molecule metabolic process
ATP biosynthetic process
purine nucleoside triphosphate biosynthetic process
ribonucleoside triphosphate biosynthetic process
purine ribonucleoside triphosphate biosynthetic process
mitochondrial electron transport, NADH to ubiquinone
ATP metabolic process
