defense response to virus
positive regulation of defense response
regulation of response to biotic stimulus
negative regulation of viral genome replication
negative regulation of viral process
positive regulation of immune response
regulation of innate immune response
positive regulation of response to external stimulus
response to virus
adaptive immune response
activation of immune response
positive regulation of innate immune response
immune response−activating signaling pathway
positive regulation of response to biotic stimulus
immune response−regulating signaling pathway
cellular response to cytokine stimulus
regulation of viral process
response to type II interferon
pattern recognition receptor signaling pathway
regulation of cytokine production
