negative regulation of viral process
positive regulation of immune response
negative regulation of viral genome replication
regulation of immune response
positive regulation of defense response
regulation of response to biotic stimulus
response to virus
regulation of defense response
defense response to virus
immune system process
defense response to symbiont
response to external stimulus
biological process involved in interspecies interaction between organisms
innate immune response
defense response to other organism
response to biotic stimulus
immune response
defense response
response to external biotic stimulus
response to other organism
